- The fire Company has had several issues with David Carangi responding to Fire and EMS calls. He has been told by the Fire Chief several times to stop as he is not trained and he is jeopardizing his safety and others. Dave Carangi had showed up on a reported gun shot and went to location after he was told not to by the Ambulance crew and then returned and told the crew he didn't see anything. When they got the approval from the State police to proceed in, he cut the ambulance off and sped up the road. Dave Carangi was told as a Fire Commissioner he is not trained and not to respond and he stated he will still go. He also stated he will go as John Q public. He then was advised by the board and the fire chief that he is not show up on any rescue or fire calls and if he does the Fire company will take action with the State Police and file charges to stop him. He was told this is for his own safety and others and to let the trained professionals do their job. The Chairman told Dave that he is looking out for the taxpayers and that the taxpayers will not be responsible for him responding to the calls.
