

**Board Of fire Commissioners  
Dist. 3 Commercial Twp.**

PO Box 616 Millville N.J. 08332

**Resolution #01092022**

**January, 09 2022**

**Purchase a Chest Compression Device**

The Board of fire commissioners of District #3 deemed it necessary to purchase a Chest Compression Device to aid in resuscitation efforts for our citizen.

After research the board decided that the LUCAS 3 was the standard for chest compression system devices at a cost of \$17,676.07 that will include an extra battery and charger in that amount. Note there are other much inferior products that perform chest compressions however we the board feel that after research the LUCAS 3 device is the standard nationwide if not worldwide and would be a much better device for our EMS.
